

I listen to K-Love, at 90.9, in my area all the time. It is the first and only radio station that I tune to. It provides this community with a positive and encourage message that is appropriate for the entire family. It is in the best interest of the public to be able to tune to a station that does not broadcast offensive issues and language. Many people would be without a station that provides this much Christian music 24/7 in this area. In fact, I wish it were available in more locations in Kansas.
